

SECTORAL DECENTRALISED PLANNING–REVISED GUIDELINES-2004

Sectoral Decentralised Planning (SDP) was introduced in all the districts except Tribal Areas of the Pradesh, pursuant to the recommendations of DCs Conference in the year 1993. Under this programme, 5 percent funds are taken out of the approved plan outlays in respect of selected heads of development and funds thus pooled are placed at the disposal of districts as "Untied Funds" to be utilized for redressal of such public grievances relating to works of small nature involving small financial implications as emerges in the district level 'Public Grievances Redressal Committees' meetings. During the period 1993-94 to 1996-97, this programme has been observed to be generally useful as district administration has been able to meet / redress the grievances of small nature. However, clarifications are sought by the districts on certain points which come-up during the course of implementation of this programme and necessary clarifications accordingly are issued by the Planning Department. Keeping in view the experience gained / clarifications issued under SDP from time to time, the need for compilation of detailed guidelines containing various clarifications already issued under this programme, was felt . As per the decision of the Government, this SDP Guidelines - 2004 have been accordingly compiled for serving as a handy tool the process of implementation.

1. The outlays under this programme are budgeted under Demand No.-15, Major Head -5475 – Capital Outlay on other General Services-00-800-01- Decentralised Planning, State Schemes Object Code – 37 – SOON - Major Works-(Plan Scheme) on a year to year basis by the State Planning Department..

3. The works / schemes to be implemented under this programme are to be approved by the District Planning, Development and Twenty Point Programme Review Committee.
4. Keeping in view the geographical conditions and local needs, DCs are authorized for inter-sectoral re-appropriation / diversion of plan funds within selected heads of development during the respective financial year with the approval of District Planning, Development and Twenty Point Programme Review Committee and , thereafter, intimated to the State

Planning Department . No re-appropriation / diversion of plan funds in respect of Rural Water Supply head is allowed. Re-appropriation / diversion of proposals within other selected heads of development , need be formally got approved during the relevant financial year. Post facto approvals after the expiry of the financial year are generally not entertained. From the year 2003-2004 onwards lump sum budget allocation instead of selected head-wise will be made by the Planning Department but Deputy Commissioners are authorized to sanction amount in the selected heads of development only under this programme.

5. The earmarked funds should be utilized during the respective financial year and unspent allocations need to be surrendered well- in - time. Generally, there should be no occasion for surrender of resources since demands always outstrip the availability of resources.
6. Under SDP, funds can be utilised for the purchase of materials / equipments needed for the project and consumed in the process of implementation , but no store articles can be purchased.
7. The funds under this programme can be spent only on the schemes / works of the selected heads of development , not on other sectors/ heads.

Subject: - Regarding sanctioning of works under Decentralized Planning Programmes as per approved estimates.

Sir,

In the meeting held with District Planning Officers in Shimla on 30-10-2018 to review the various schemes under Decentralized Planning Programmes, it was observed that funds for works under Decentralized Planning Programmes are being sanctioned in piecemeal manner and many works remain in-complete for want of funds.

In view of this, it was decided in the above mentioned meeting that for all eligible schemes under Decentralized Planning Programmes full amount may be sanctioned in one go as per actual site based estimates so that works can be completed within scheduled time and scheme /asset is put in use in public interest at the earliest.

You are, therefore, requested that no work may be sanctioned without actual site based estimates and full amount for eligible work in one go may be provided so as to reduce the number of incomplete works under these programmes.

Yours faithfully,
